PROFESSIONAL SUMMARY

Second-year B.Tech student with hands-on experience building full-stack web applications using React, Node.js, Express, and MongoDB, and a demonstrated ability to design responsive, database-driven interfaces from the ground up. Completed an internship in solar system operations, gaining practical exposure to renewable energy technologies, system monitoring, and structured troubleshooting. Combines a strong technical foundation with an 8.14 CGPA and a track record of independently shipping functional web projects. Seeking a Software Engineering internship to contribute full-stack development and problem-solving skills to real-world systems.

INTERNSHIP EXPERIENCE

System Operator Intern — *DAR Solar Solutions* **June 2026 (1 Month)**

- Monitored and managed real-time solar power system operations, ensuring consistent energy output and system reliability.
- Supported preventive maintenance and performance-tracking activities, helping identify and address operational inefficiencies.
- Diagnosed and resolved basic technical faults through structured troubleshooting, minimizing system downtime.
- Gained practical, hands-on exposure to renewable energy technologies and industrial operational workflows.

EDUCATION

B.Tech — Computer Science & Engineering (2025 – 2029 Expected)
Karunya Institute of Technology and Sciences, Coimbatore | **CGPA: 8.14**

PROJECTS

Raju Madras Cafe — Full-Stack Restaurant Web Application (React.js · Node.js · Express.js · MongoDB)

- Developed a full-stack restaurant web application delivering a smooth, intuitive browsing experience for customers.
- Built a dedicated admin panel enabling real-time menu management, including adding, updating, and deleting menu items.
- Implemented dynamic search and filter functionality, allowing users to quickly locate menu items by category and keyword.
- Designed a fully responsive, user-friendly interface optimized for both desktop and mobile viewing.
- Integrated the frontend with a backend database, enabling efficient, structured data handling for menu content.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools & Others:** Git, GitHub, VS Code

CERTIFICATIONS

- Microsoft Certified — Azure AI Fundamentals
- Google Certified — Cloud Digital Leader
